

POWERPOINT PROJECT

Today I want to share with you that next week, we're diving into a fun and creative project that will help you reflect on your journey and showcase your drive, passion, goals, dreams and aspirations. Whether it's a business idea (entrepreneurial speaking), a hobby you love au so much, or even your dream job. You'll create a 4-7 slide PowerPoint presentation that tells your story vividly, on a large scale—

How did you get started?

Where are you now in your goals, dreams and aspirations?

What advice would you give your younger self?

- **Here's the structure:**

Start with the spark: Share what made you fall in love with this idea or hobby.

Talk about your journey: Highlight the ups, downs, and milestones along the way.

Celebrate your success: Show us where you are now and what you've achieved.

Reflect on growth: Give advice to your younger self—what you've learned and how you'd encourage them.

End with excitement: Share where you see this going in the future and leave your audience motivated!

- In this presentation, you'll use interactive elements, like videos, links, or animations, to bring your story to life. You'll focus on clarity, so your ideas are easy to follow, compassion in your development to connect with your audience, and passion to make us feel your excitement for the project.

- The goal is to make this fun, creative, and meaningful—it's not just about the PowerPoint skills but about discovering what excites you and communicating it in a way that inspires. Take this opportunity to market yourself, share your dream, and show us how far you've come!"
